

Help Us Help You Accessing NHS Services: **Primary Care toolkit**

HELPWCH NI | HELP US
I'CH HELPU CHI | HELP YOU

This toolkit contains assets for your social media channels communicating the best way to access different primary care services in Wales.

What we want to achieve:

The way we access NHS services in Wales has changed in recent years. We want to provide clear, simple information about which services have changed and how they can be accessed, to empower people across Wales to make the best decisions when it comes to accessing the NHS.

We've created digital assets for you to share on your channels to help communicate these messages to your audience.

All assets are animated videos and are available in both English and Welsh. Each has been created in a square 1:1 ratio for use on your social media channels and online.

You will find information about the assets available, suggested social copy, and links to the assets in the table within this toolkit. Some assets have multiple suggestions for social media copy – please select the copy that is most relevant to you and your channels.

Campaign:

Help Us Help You – Primary Care

Marketing objective:

Help people in Wales understand what they can do to get the right care, in the right place, first time.

Target audience:

1. General public
2. Parents of young children
3. Under-represented groups

Asset type:

1:1 videos

Key messages:

1. Better health starts with you.
2. There are many ways to access the NHS in Wales.
3. Changing the way you access the NHS means that you are more likely to get the right care, in the right way, first time.
4. From pharmacists to high street opticians, and mental health helplines to online consultations, there are many ways to access the NHS in Wales.
5. So it's easier to get care, help and advice with new or existing conditions, even without leaving your home or workplace.

Dental care

1 x 1 video

Tweet 1

If you have good oral health, your dentist may only invite you for a check-up once a year now. This will help them focus on people who most need them – those in pain or with poor oral health.

Better health starts with you. [#helpushelpyou](https://www.gov.wales/HelpUsHelpYou)

Tweet 2 – from a dentist

If you have good oral health, we may only invite you for an annual check-up.

This allows us to focus on the people that need us most – those in pain or with poor oral health.
